---

## PROFESSIONAL SUMMARY

Front-end engineer with **9 + years** building scalable **Angular | .NET** applications across healthcare | finance | enterprise domains. Expert in **Angular (2 – 18) | RxJS | .NET Core integration**. Passionate about **modular architecture | typed forms | signal-based state management**. Skilled at simplifying complex workflows into **performant | maintainable | accessible** interfaces. Advocate for **clean | testable | well-structured code** under Agile delivery.

---

## TECHNICAL SKILLS

**Frontend:** Angular (2 – 18) | TypeScript | RxJS | Signals | HTML5 | SCSS | Angular Material | Bootstrap | Standalone Components
**State Management:** Signals | BehaviorSubjects | RxJS Operators
**Backend:** .NET Core 9 | ASP.NET MVC | C# | REST APIs
**Database:** SQL Server | Entity Framework | T-SQL
**Tools:** Visual Studio Code | Azure DevOps | Git | Node.js | NPM
**Practices:** Agile (Scrum) | CI/CD | Unit Testing (Jasmine | Karma) | TDD | Clean Architecture

---

## PROFESSIONAL EXPERIENCE

### Front-End / Full-Stack Developer (Angular | .NET)

**Manage My Health — Auckland NZ | Mar 2025 – Present**
- Support multiple national healthcare platforms | ensuring data integrity across Angular web | Ionic mobile | .NET backend systems.
- Debug | resolve defects within SQL | API endpoints | Angular components.
- Lead troubleshooting for XML | JSON third-party integrations (Alex | MedTech).
- Collaborate with product | engineering teams in Agile sprints to deliver stable | compliant releases.
- Maintain CI/CD pipelines | version control via Azure DevOps (Git).

**Impact:** Maintained 99.9 % uptime | data accuracy for 50 K + patients nationwide.

## Full-Stack Developer (Angular | Blazor | .NET Core)

**NZX Wealth Technologies — Auckland NZ | Oct 2023 – Feb 2025**
- Modernized legacy financial platforms | bridged AngularJS to Blazor architecture.
- Delivered secure production modules | translated complex specs into functional solutions.
- Collaborated with analysts | QA to validate financial calculations | compliance.
- Improved maintainability through modular refactoring | expanded unit test coverage.

## .NET | Angular Developer

**iSolve — Johannesburg South Africa | Oct 2017 – Sep 2023**
- Led front-end modernization for enterprise clients | Rand Mutual Assurance (RMA) | South African National Blood Service (SANBS).
- Architected Angular dashboards | claims workflows | real-time reporting modules.
- Managed backend integrations (Service Fabric | Autofac DI | Entity Framework).
- Drove code-review discipline | reusable component design across distributed teams.

**Key Projects:**
- **RMA Claims Portal (2019 – 2023):** Rebuilt from WebForms to Angular + .NET APIs
- **SANBS Clinic Scheduler (2017 – 2018):** Developed scheduling | back-office tools using Entity Framework | SQL Server

## EDUCATION

**Diploma in Software Development | iSolve | 2017**

## CERTIFICATIONS

Microsoft Certified | Azure Fundamentals
Microsoft Certified Solutions Developer (MCSD)
Microsoft Certified Solutions Associate (MCSA)

## ADDITIONAL

Trail Running | Hiking | Family Time | Biblical Theology | Fitness
